

Stop Hemorrhaging Money: The SME Finance Revolution

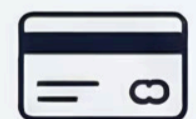

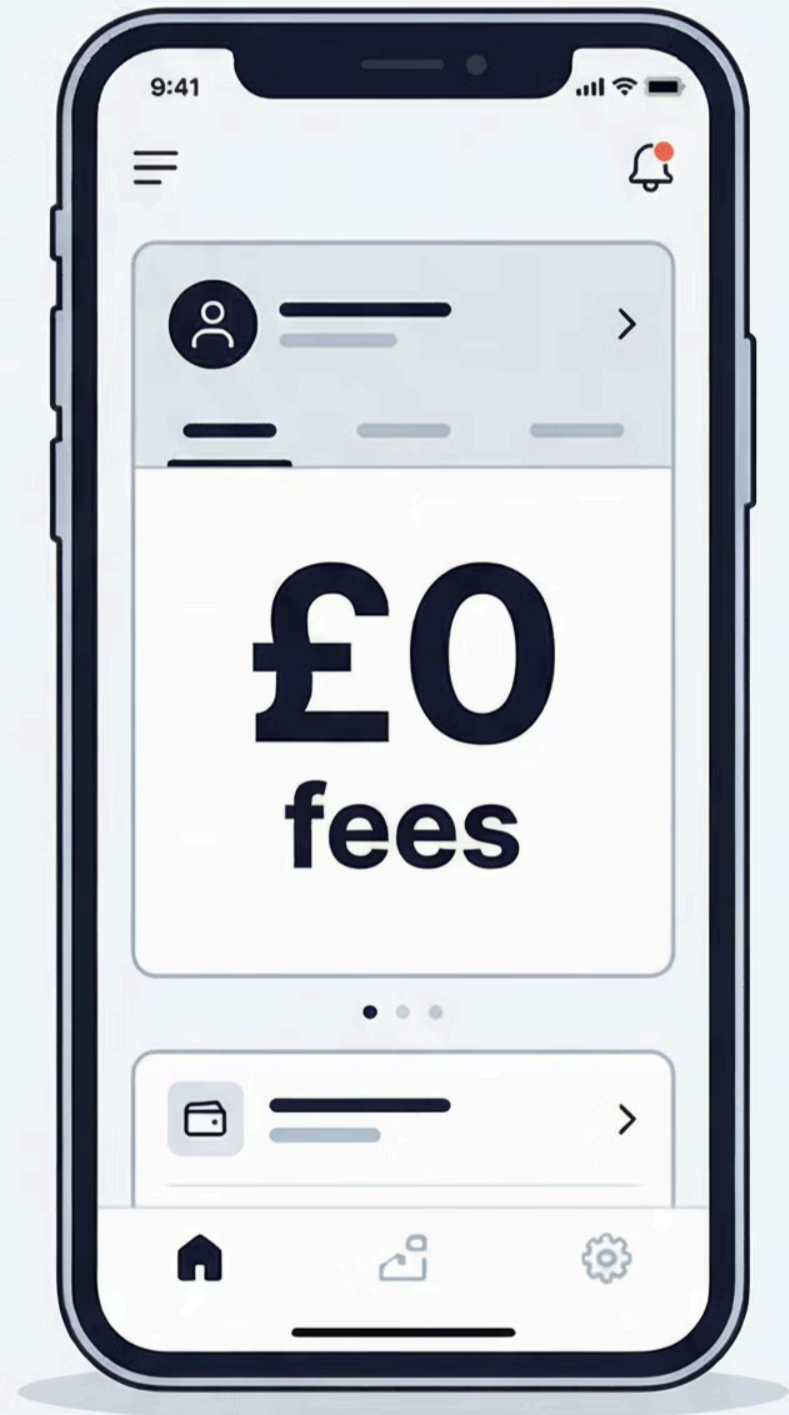

UK SMEs lose £47,000 annually
to preventable finance costs

Bank Fees: The Silent Profit Killer

Traditional business banking fees can cost SMEs between **£2,000-£8,000** per year unnecessarily.

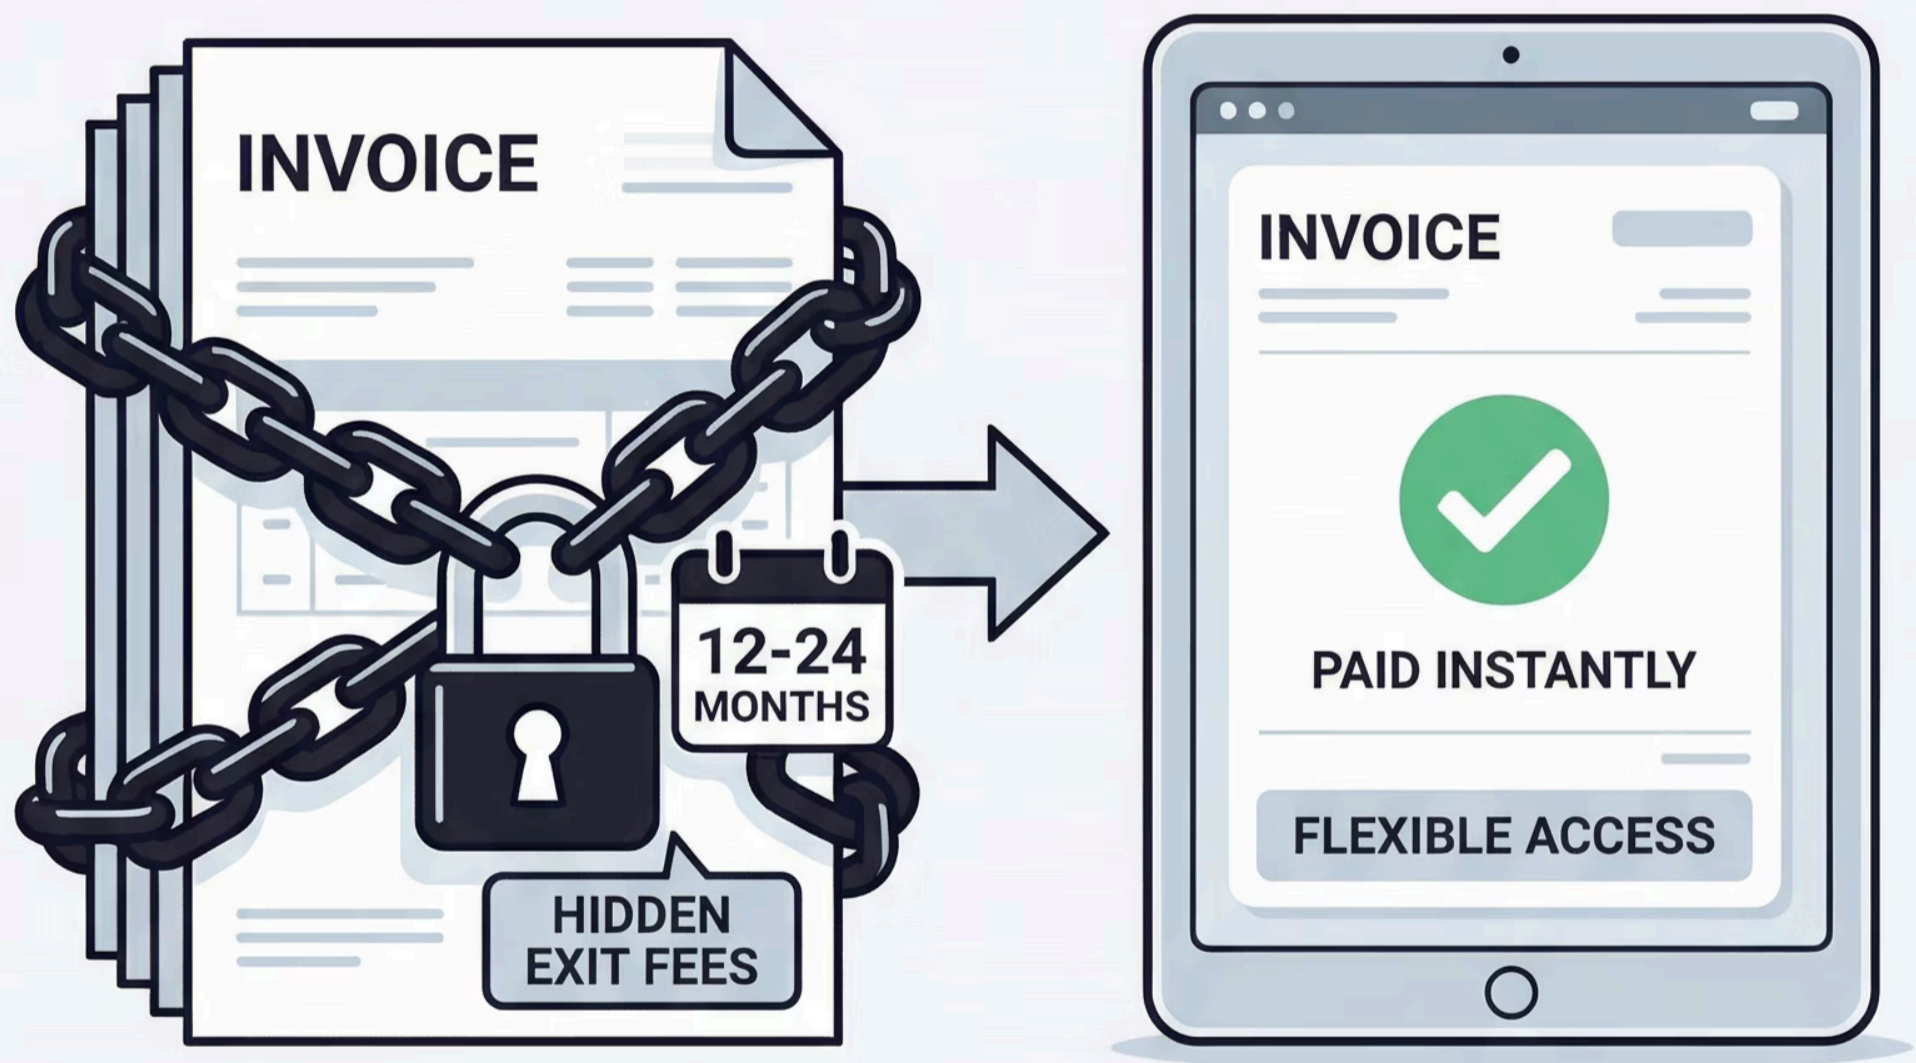

Overdraft charges alone average **£150 per month** for businesses using 80% of their facility.

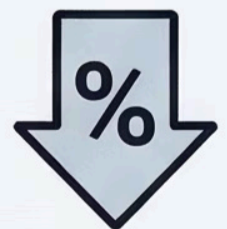

Most banks **profit more from fees** than they do from lending to small businesses.

Invoice Finance: Expensive Lifeline

Invoice factoring costs UK businesses 2-5% of turnover annually—money that should stay in your pocket.

Traditional factoring locks you into 12-24 month contracts with hidden exit fees.

There are now flexible alternatives that cost 60% less than high street providers.

Currency Exchange: The Forgotten Tax

SMEs importing or exporting lose 3-4% on every international transaction through high street banks.

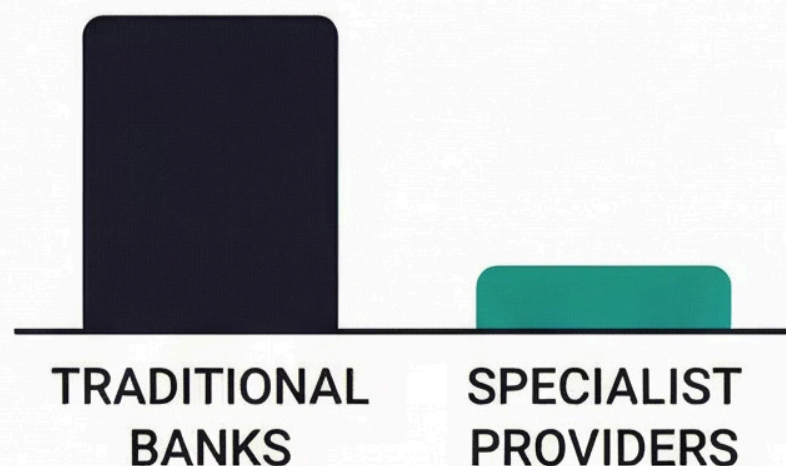

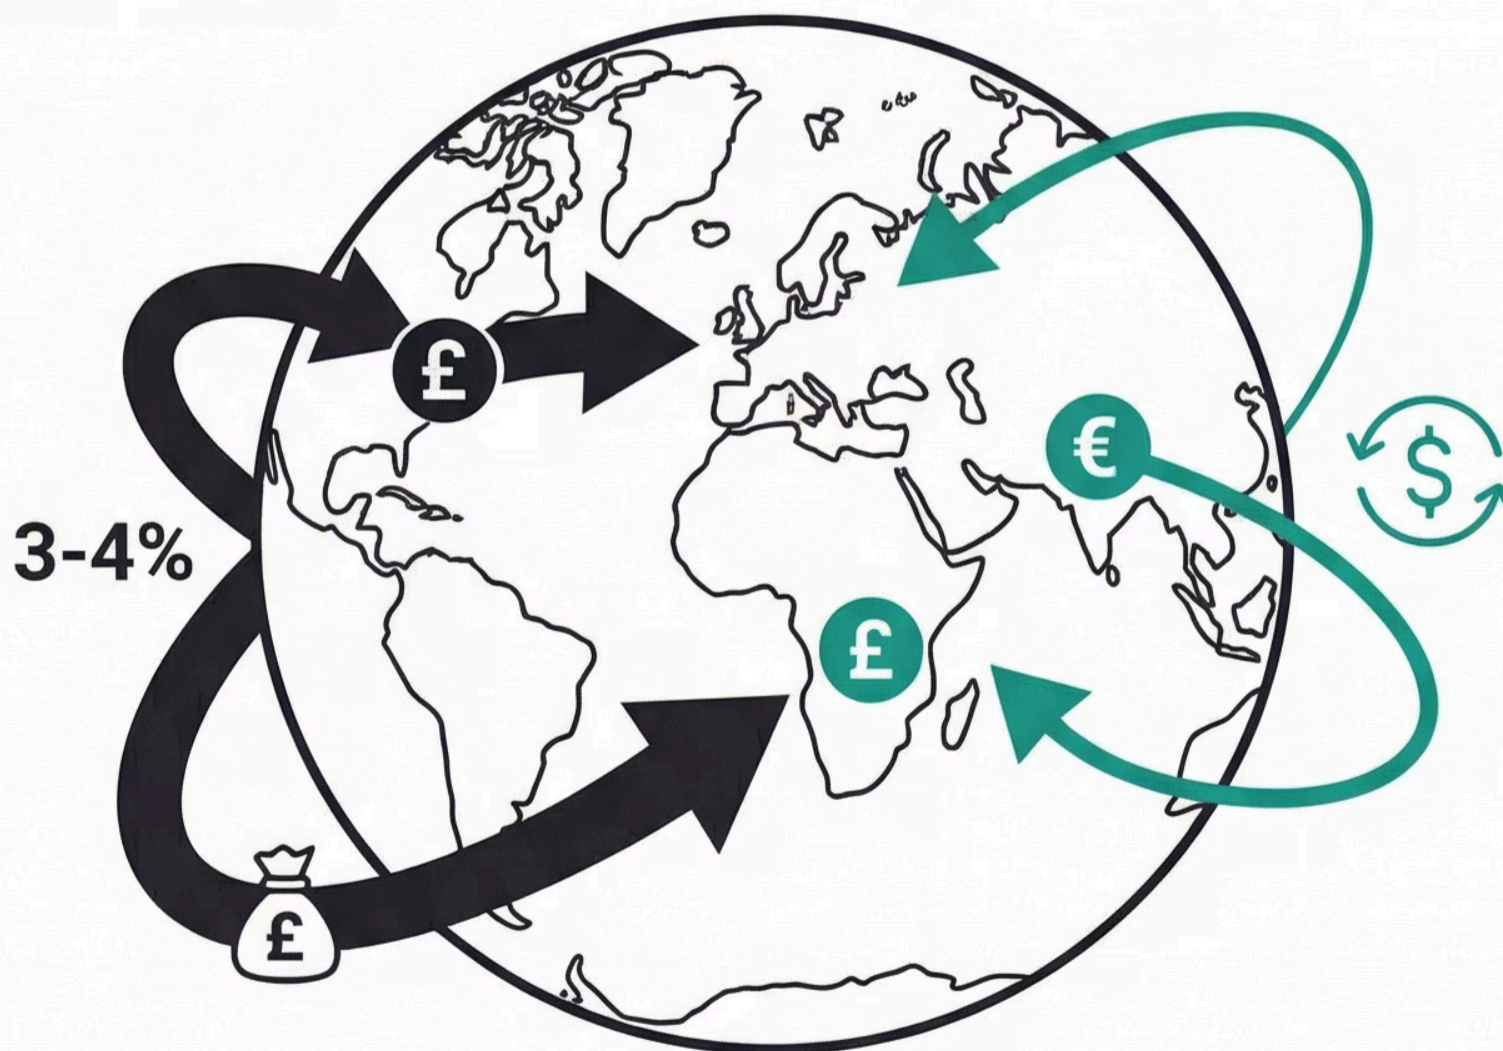

SMEs importing or exporting lose 3-4% on every international transaction through high street banks.

A £100,000 annual import business wastes £3,000-£4,000 yearly on poor exchange rates.

Specialist currency providers offer rates 85% closer to interbank rates.

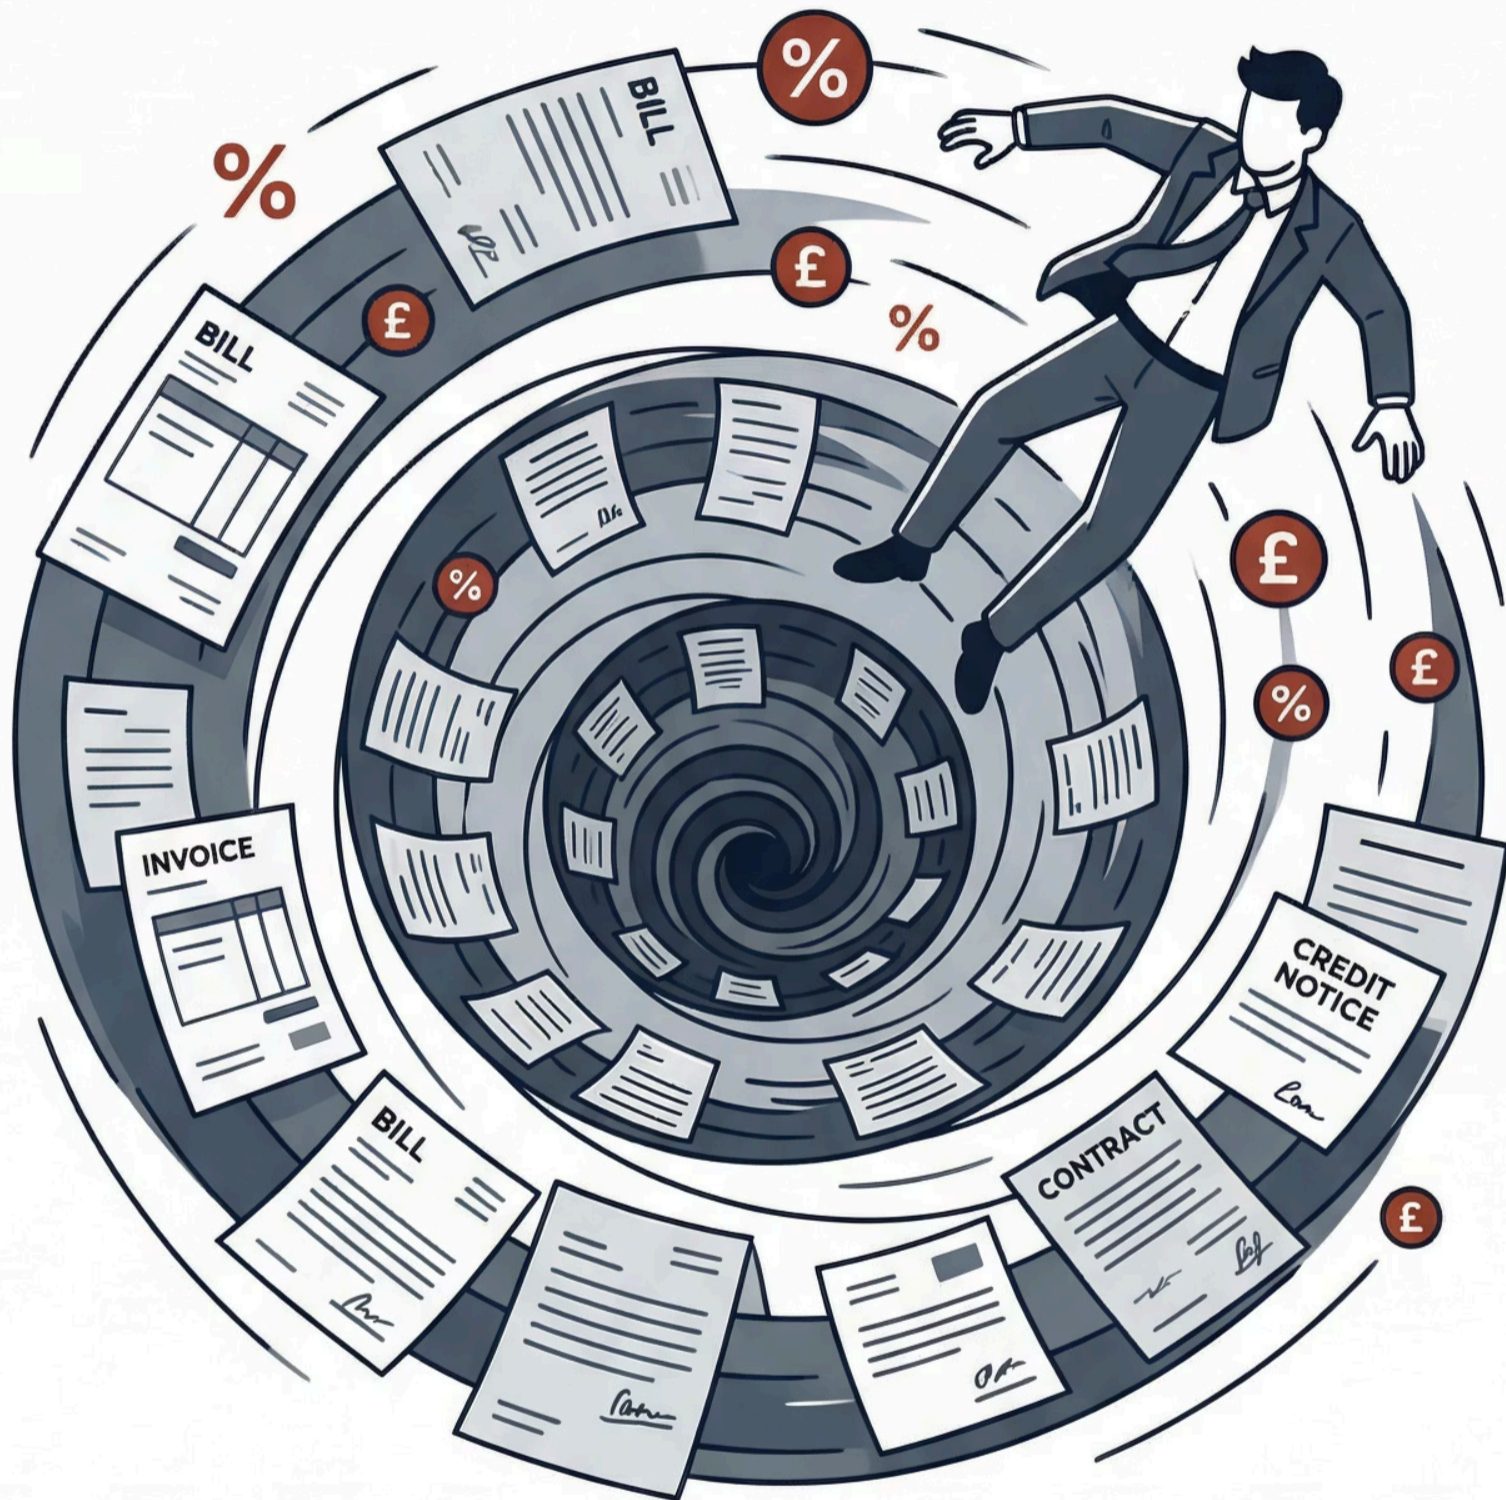

'CASH FLOW CRISIS POINT'

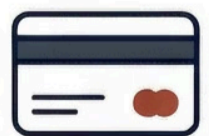

The Debt Spiral Trap

68% of UK SMEs rely on expensive short-term credit when cash flow problems hit.

Merchant cash advances can cost **40-60% APR**—more than credit cards.

Emergency funding decisions made in panic cost businesses **thousands unnecessarily.**

Technology: Your Secret Weapon

Modern accounting software reduces bookkeeping costs by 70% compared to traditional methods.

Automated invoicing and payment systems improve cash flow by an average of 25 days.

Cloud-based financial management saves SMEs £150-£300 monthly in admin costs.

The Clear Path Solution

We've helped over 500 UK SMEs reduce their finance costs by an **average of £18,000 annually**.

Our clients typically see **ROI within 90 days** of implementing our recommendations.

Stop paying more than necessary—your business deserves better.
